Green Plains Partners Reports Second Quarter 2020 Financial Results

Results for the Second Quarter of 2020

- Net income of \$10.2 million, or \$0.43 per common unit
- Adjusted EBITDA of \$13.2 million and distributable cash flow of \$11.3 million
- Quarterly cash distribution of \$0.12 per unit
- Distribution coverage ratio of 3.99x, LTM distribution coverage ratio of 1.59x
- Completed \$135 million debt financing

OMAHA, Neb., Aug. 03, 2020 (GLOBE NEWSWIRE) -- Green Plains Partners LP (NASDAQ:GPP) today announced financial and operating results for the second quarter of 2020. Net income attributable to the partnership was \$10.2 million, or \$0.43 per common unit, for the second quarter of 2020 compared with net income of \$10.7 million, or \$0.45 per common unit, for the same period in 2019.

The partnership also reported adjusted EBITDA of \$13.2 million and distributable cash flow of \$11.3 million for the second quarter of 2020, compared with adjusted EBITDA of \$13.9 million and distributable cash flow of \$11.7 million for the same period in 2019. Distribution coverage was 3.99x for the three months ended June 30, 2020 as compared to 1.04x for the same period a year ago.

“Green Plains Partners continues to generate consistent and strong financial results and cash flows through long term minimum volume commitments and a stable logistics business,” said Todd Becker, president and chief executive officer. “We continue to demonstrate the resiliency of our business model as we delivered solid results for unit holders and were pleased to have completed our loan refinancing during the quarter. We remain focused on further deleveraging the partnership through the repayment of debt, which should ultimately accrue to the benefit of all stakeholders.”

Second Quarter Highlights and Recent Developments

- On June 4, 2020, the partnership refinanced its debt facility into a \$130.0 million term loan and a \$5.0 million revolving credit facility, maturing December 31, 2021.
- On July 16, 2020, the board of directors of the partnership’s general partner declared a quarterly cash distribution of \$0.12 per unit, or approximately \$2.8 million, for the second quarter of 2020. The distribution is payable on August 7, 2020, to unitholders of record at the close of business on July 31, 2020.

Results of Operations

Consolidated revenues decreased \$0.4 million for the three months ended June 30, 2020, compared with the same period for 2019. Terminal services revenue decreased \$0.3 million primarily as result of a decrease in fees associated with minimum volume commitments. Revenues generated from railcar transportation services decreased \$0.1 million primarily due to lower sublease revenue.

Operations and maintenance expenses increased \$0.4 million to \$6.6 million for the three months ended June 30, 2020, compared with the same period for 2019, primarily due to an increase in railcar lease expense as well as accretion expense associated with asset retirement obligations. General and administrative expenses decreased \$0.1 million to \$0.9 million for the three months ended June 30, 2020, compared with the same period for 2019, primarily due to a reduction in accounting fees.

During the second quarter of 2020, our parent’s average biofuel production utilization rate decreased to approximately 53.5% of capacity, primarily due to lower margins driven by a significant reduction in motor fuel demand as a result of the COVID-19 pandemic. Biofuel throughput was 150.1 million gallons, compared with the contracted minimum volume commitment of 235.7 million gallons per quarter. As a result, the partnership charged Green Plains Trade \$4.3 million related to the minimum volume commitment deficiency for the quarter, resulting in a credit to be applied against excess volumes in future periods. This credit will expire by June 30, 2021, if unused by Green Plains Trade. The deficiency charge was recognized in revenue by the partnership for the three months ended June 30, 2020, and as such, future volumes throughput by Green Plains Trade in excess of the quarterly minimum volume commitment, up to the amount of \$4.3 million, will not be recognized in revenue in future periods prior to expiration.

Non-GAAP Financial Measures

Adjusted EBITDA and distributable cash flow are supplemental financial measures used to assess the partnership's financial performance. Management believes adjusted EBITDA and distributable cash flow provide investors useful information in assessing the partnership's financial condition and results of operations. Adjusted EBITDA is defined as earnings before interest expense, income tax expense, depreciation and amortization, plus adjustments for transaction costs related to acquisitions or financings, unit-based compensation expense, net gains or losses on asset sales and the partnership's proportional share of EBITDA adjustments of equity method investee. Distributable cash flow is defined as adjusted EBITDA less interest paid or payable, income taxes paid or payable, maintenance capital expenditures and the partnership's proportionate share of distributable cash flow adjustments of equity method investee. References to LTM refer to results from the immediately preceding twelve-month period. Adjusted EBITDA and distributable cash flow are not presented in accordance with generally accepted accounting principles (GAAP) and therefore should not be considered in isolation or as alternatives to net income or any other measure of financial performance presented in accordance with GAAP to analyze the partnership's results.
